REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of an image display device and its related method of displaying, having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including as recited in the amended claims 1 and 16, wherein the liquid powder does not have a repose angle as an index indicating its fluidity, and as further argued in the Applicant's remarks on pages 13-14. With respect to claims 3-15, these claims depend from claim 1. With respect to claims 17-31, please note the reasons for allowance given in the office action mailed on 3-21-07, noting pages 11-12, paragraphs 18 and 19.

Please also note that the amendments to the claims (claims 1 and 16, as indicated above), places the claimed invention in condition for allowance over the provisional obviousness-type double patenting rejections made in the office action mailed on 3-21-07. At the time of this office action, this rejection no longer applied.

Therefore, in light of the Applicants' arguments and/or amendments, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
